

Dorm Furniture: The Most Important Piece of All

By far, the most important piece of dorm furniture is the mattress. Not only does it need to properly support the student for a good night's rest, but the reality of off-gassing from odorless, dangerous chemicals needs to be minimized.

We are proud to handcraft all of our mattresses in our family-owned factory using the finest quality materials.

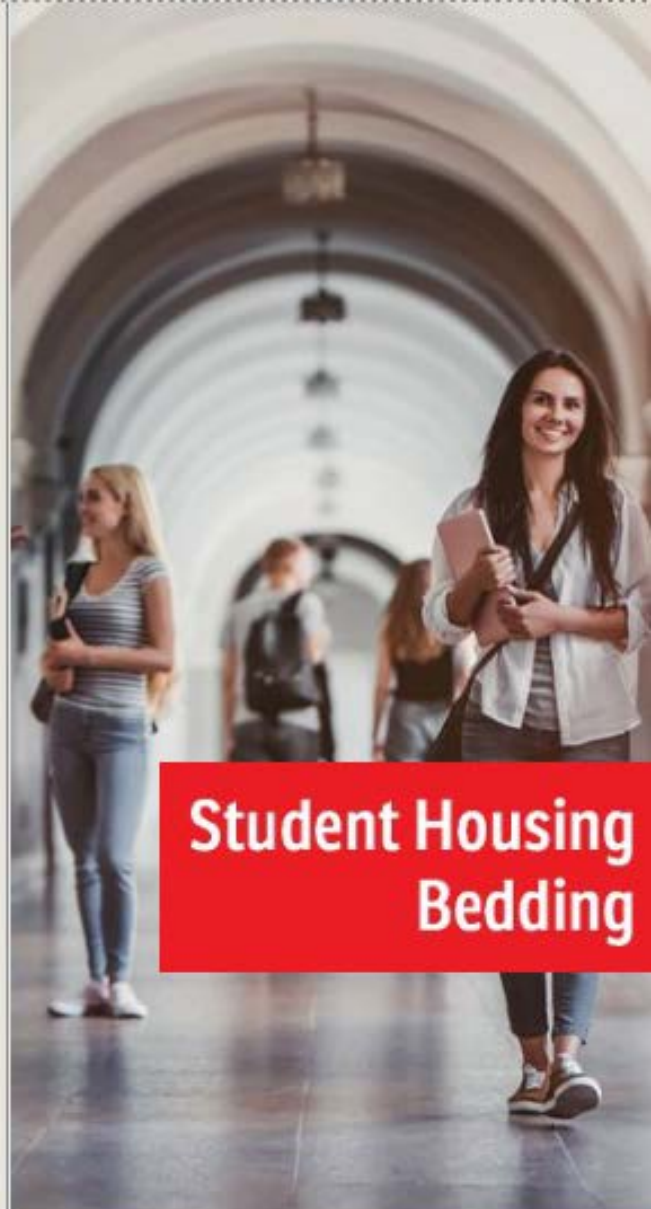

Three Things to Consider When Choosing Your Mattress Provider

- 1. Safety.** Always make sure your mattresses comply with federal flammability standards set by the Consumer Product Safety Commission (CPSC).
- 2. Durability.** Dorm mattresses must accommodate considerably larger student for a longer period of time. With waterproof mattress covers, you don't have to worry from fluids and dirt penetrating into the core of the mattress.
- 3. Comfort.** Sleep is linked directly with the body's functional abilities and physical health. Provide your students with the best sleeping comfort possible.

MATTRESSES – MATTRESS COVERS

Our innerspring and all-foam mattresses are possibly the most durable. They feel like a residential mattress. Our mattresses come in a variety of cover options and core specs customizable to almost any specification you require. All of our mattresses meet the 16 CFR 1633 Flammability Standards set forth by the Consumer Safety Commission (CPSC).

- Meets Strict Fire Regulations
- Nylon Anti-Microbial Cover
- Waterproof On All Sides
- Virus & Bacterial Proof
- Bed Bug & Fluid Resistant

NationalAllergy®
For An Allergy-Free Lifestyle

The encasement totally envelops the mattress to ensure nothing from outside the mattress gets in. Safe and impenetrable, the encasement zipper easily encases all six sides with comfortable 100% poly knit material. The bed bug-proof zipper patch, unzips on all 3 sides making installation or flipping of a mattress much easier. The freshlooking appearance is actually backed by a film barrier that keeps dustmites and allergens away and stains off, and yet is breathable, and so quiet, you never know it's on your bed.

- Bed Bug Proof Zipper Patch
- Designed For Easy Installation
- Waterproof On All Sides
- Virus & Bacterial Proof
- Total Dust Mite And Allergen Protection
- Guaranteed For 300 Washings
